

Appl. No. 10/536,673  
Art Unit 2618

- 1 -

**ATTACHMENT B-2**  
**Amended Claims**

1. (Currently amended) A portable personal communications and cosmetics apparatus comprising a base unit having side walls with a plurality of cavities therein for receiving removable cosmetics products and a mobile phone unit mounted on the base unit.

2. (Original) An apparatus according to claim 1, in which said mobile phone unit is detachably mounted on the base unit.

3. (Original) An apparatus according to claim 2, further comprising a top unit for carrying further cosmetics products.

4. (Previously amended) An apparatus according to claim 3, in which the top unit is detachably mountable on either the base unit or the mobile phone unit.

5. (Original) An apparatus according to claim 2, including a fascia device detachably mountable on the mobile phone unit when the latter is detached from the base unit.

6. (Original) A portable personal communications and cosmetics apparatus comprising a cosmetics unit with cavities therein for receiving removable cosmetics products and a mobile phone unit detachably mounted on the cosmetics unit.

7. (Currently amended) A portable personal communications and cosmetics apparatus comprising a base unit, a cosmetics carrier for cosmetics products comprising a tray slidable in the base unit carried by the base unit and movable relative thereto between an open position for accessing the cosmetics products and a closed position, and a mobile phone unit mounted on the base unit.

8. (Canceled)

9. (Previously submitted) An apparatus according to claim 1 further comprising a top unit for carrying further cosmetics products.

ATTACHMENT B-2  
Amended Claims

10. (New) A portable personal communications and cosmetics apparatus according to claim 1 wherein said base unit side walls have a given depth, said base unit having a width greater than the width of said mobile phone unit, a length greater than the length of said mobile phone unit, and a tray for receiving the cosmetics products slidably mounted in said base, said tray having a depth less than said given depth, one of said cavities slidably receiving said tray, and other of said cavities adapted to receive individual cosmetic products.

11. (New) A portable personal communications and cosmetics apparatus according to claim 1, including selected cosmetic products having screw-threaded packages, selected ones of said cavities being screw-threaded complementary to said screw-threaded packages.

12. (New) A portable personal communications and cosmetics apparatus comprising a mobile phone unit non-detachably mounted in a said case having a back coextensive in length and width with said unit, said apparatus having a recess separating the phone unit from the back of the case, and a cosmetics carrier for cosmetics products comprising a tray slidable in the hollow recess of the case and movable relative thereto between an open position for accessing the cosmetics products and a closed position.

13. (New) A portable personal communications and cosmetics apparatus according to claim 12, including a plurality of cavities in said case, and selected cosmetic products having screw-threaded packages, selected ones of said cavities being screw-threaded complementary to said screw-threaded packages.
